

a place of mind

Head, Division of Neonatology Regular Full-Time

**Division of Neonatology
Department of Pediatrics
University of British Columbia
BC Children's and Women's Hospital
Vancouver, BC Canada**

BC Women's Hospital & Health Centre (BCW) is the only facility in British Columbia (BC) devoted primarily to the health of women, newborns and families. It provides a broad range of specialized women's health services that address the health needs of women of all ages and backgrounds and the Neonatal Program is the hub of the provincial quaternary care system. BC Women's is one of the largest maternity facilities in Canada, with about 7,200 births a year, and is both the major primary and secondary maternity services provider in BC's Lower Mainland region and the cornerstone of the provincial tertiary care system. As an academic health centre, BCW's mandate includes providing strong leadership in research through the BC Women's Research Institute and education in partnership with the University of British Columbia (UBC) as well as professional development of health care professionals in areas related to the health of the populations we serve.

BC Children's Hospital (BCCH) cares for the province's most acutely ill or injured children and youth and pediatric patients with chronic medical disorders, and provides developmental and rehabilitation services to children and youth throughout BC. BCCH offers a wide range of health services and specialized health programs, is a leading acute care teaching facility, and conducts research to advance health and care through the BC Children's Hospital Research Institute, in partnership with the UBC. The pediatric residency program and 16 pediatric subspecialty-training programs are accredited by the Royal College of Physicians and Surgeons of Canada.

BCCH and BCWH are agencies of the **Provincial Health Services Authority (PHSA)** which plans, manages and evaluates specialty and province-wide health care services across BC. PHSA embodies values that reflect a commitment to excellence. These include: Patients first • Best value • Results matter • Excellence through knowledge • Open to possibilities. Learn more about PHSA and our programs: jobs.phsa.ca/programs-and-services

The University of British Columbia (UBC) is Canada's third largest university and consistently ranks among the 40 best universities in the world. Primarily situated in Vancouver, UBC is a research-intensive university and has an economic impact of \$4 billion to the provincial economy.

The BC Children's Hospital Research Institute (**BCCHR**) is a partnership of UBC and the Provincial Health Services Authority (PHSA) whose programs include BC Children's Hospital, Sunny Hill Health Centre for Children and the BC Women's Hospital and Health Centre. The BCCHR is dedicated to high quality research spanning a wide range of concerns relevant to children's and family health.

The Women's Health Research Institute (**WHRI**) is devoted to improving the health and health care of girls and women, serving as a catalyst for research in women's health and supporting an expanding national network of women's health researchers, policy makers and health care providers.

The Division of Neonatology, Department of Pediatrics, The University of British Columbia (UBC) together with Children's and Women's Health Centre of British Columbia (C&W), invites applicants for the position of Head, Division of Neonatology.

Housed in the newly opened Teck Acute Care Centre, the Neonatal Intensive Care Unit (NICU) at C&W is one of the largest and busiest in Canada with 70 single family rooms. It is the quaternary referral centre for BC. It is an international leader in Health Care, Education and Research with a strong track record in health policy.

The NICU is supported by a full complement of pediatric subspecialties, including Pediatric Surgery and ECMO. The Division is an international leader in clinical care, education and research with a strong track record in Nutrition, Neonatal follow up, Neonatal Immunology, Infectious Diseases, Neurosciences, ethics, simulation, functional echocardiography, pain and basic science. The Division is committed to continuous quality improvement and the establishment of innovative models of neonatal care to improve patient safety, health outcomes and patient/family experience. The Division has a fully accredited Royal College of Physicians and Surgeons of Canada fellowship-training program.

As the successful candidate for the Division Head position, you will have demonstrated productivity and excellence in academics and clinical care. Moreover, the successful candidate should possess the vision, the leadership and management skills necessary to ensure high quality clinical service, and to support growth and productivity of its members.

You will have passed or be eligible for the Royal College of Physicians and Surgeons of Canada examinations in pediatrics or comparable qualifications, and will have completed a recognized training program in neonatology. The successful candidate will be recommended for a faculty appointment in the Department of Pediatrics at UBC, commensurate with qualifications and experience.

Applications accepted until the position is filled.

Qualified candidates should send their CV and the name, title, rank and contact information of 3 referees to:

Dr. Caron Strahlendorf
Clinical Professor
Interim Co-Head Department of Pediatrics
Children's and Women's Health Centre of BC
Email: cstrahlendorf@cw.bc.ca

PHSA, BCCH and UBC are committed to employment equity, encouraging all qualified individuals to apply. We recognize that our ability to provide the best care for our diverse patient populations relies on a rich diversity of skills, knowledge, background and experience, and value a safe, inclusive and welcoming environment.
